

SolVive Slim

USB Portable Battery & Solar Charger with Flashlight

The Lenmar SolVive Slim is the perfect solution for emergency and portable power. The Solar Charger includes a built-in 1500mAh lithium-ion battery that can be charged using the provided USB cable or by sunlight via the solar panel. This portable charger includes a USB output to charge your smartphone, MP3 player, and more (using your device's existing USB cable). It also includes a fully adjustable powerful LED light for your convenience. This is the perfect unit for outdoor and gadget enthusiasts or consumers in need of a power boost.

Features:

- ▶ Portable Battery and Charger - Charge Via Solar Power (up to 50%) or USB Port (USB cable included)
- ▶ 1500mAh Battery and USB output
- ▶ 4 LED indicator to show remaining power and charging status
- ▶ Features built-in LED flashlight - Flexible and adjustable
