

SolVive Lantern

Portable Battery, Charger, & Lantern

Lenmar's SolVive Lantern combines multiple benefits for outdoor and emergency use. This unit offers an LED lantern and an ultra-bright LED torch with SOS signal function. Charge your mobile devices through a built-in USB port with the Solar Lantern's internal 1700 mAh lithium ion battery. The unit itself can be charged via its USB port or through its solar panel for emergency charging. Its rubberized handle allows for a steady grip in outdoor conditions and an integrated carabiner allows you to secure the unit on your gear. For your next outdoor adventure, don't forget your Lenmar SolVive Lantern.
