Drawing once again on Sangeans' simple style and elegance as well as our desire to keep our radios simple we introduced the WR-1. With its acoustically tuned wooden cabinet, large 3" 7 watt speaker and only 3 rotating knobs this amazingly sensitive and sophisticated radio is easier to control than your average TV and sounds better than your home stereo system.

And although it looks classic it has plenty of modern features to give your living room, bedroom, or even kitchen a great sound and look. Can operate on 9-14V DC power adapter (not included). Includes. AC power cord.

WR-1

AM / FM Table Top Receiver
